CAREER OBJECTIVE

Entry-level **Java Backend Developer** with strong fundamentals in **Java, Spring Boot, SQL, and REST API development**. Built and deployed backend-driven applications with authentication, database design, and business logic. Actively seeking a **software engineering** role to contribute to real-world systems and grow as a backend engineer.

EDUCATION

Bannari Amman Institute of Technology, Sathyamangalam B.Tech in Computer Technology CGPA: 8.14 (Up to 7th Semester)	2022 – 2026
R G Matric Higher Secondary School, Udumelpet 12 th Grade – 89.3%	2021 – 2022
R G Matric Higher Secondary School, Udumelpet 10 th Grade – 97.4%	2019 – 2020

TECHNICAL SKILLS

Programming Languages: Java, C, React js, MYSQL
Frameworks & Libraries: Spring, Spring Boot, Spring Security, REST APIs, JWT Authentication
Databases: MySQL
Developer Tools: Git, GitHub, IntelliJ IDEA, VS Code, MySQL Workbench, Google Antigravity, GitHub Copilot
Concepts: Data Structures and Algorithms, OOP, Software Development Life Cycle (SDLC), Version Control, Problem Solving, Frameworks
Deployment: Vercel, Railway, Render, Aiven

PROJECTS

Microservices E-Commerce Backend System - ongoing *Java, Spring Boot, Spring Cloud, MySQL, REST API, Docker*

- Designed and developed a scalable **microservices-based e-commerce backend** using **Spring Boot** and **Spring Cloud**, following industry-standard architecture.
- Built independent microservices including **User Service, Product Service, Order Service, and API Gateway**, enabling modular development and easy scalability.
- Implemented **service-to-service communication** using **REST APIs** and centralized routing using **Spring Cloud API Gateway**.
- Integrated **Eureka Service Registry** for dynamic service discovery and load balancing between microservices.
- Designed optimized **MySQL databases** for each service ensuring proper data isolation and consistency.
- Implemented secure endpoints with **JWT-based authentication and Spring Security** to protect user and order data.
- Containerized microservices using **Docker** for consistent deployment and environment portability.
- Tested and validated APIs using **Postman** and followed clean architecture principles for maintainable and production-ready backend systems.

Bank Loan Management System - LIVE

Java, Spring Boot, React, MySQL, REST API, JWT

- Developed a secure **full-stack loan management system** using **Spring Boot, React, and MySQL** to handle loan application, approval, and repayment workflows.
- Implemented **JWT-based authentication and role-based authorization** (Admin/User) using **Spring Security**, ensuring secure access and data protection.
- Designed and developed **RESTful APIs** for loan processing, user management, EMI calculation, and document handling, improving system modularity and scalability.
- Built responsive **React dashboards** enabling users to apply for loans, track status, and admins to review, approve, or reject applications.
- Designed optimized **MySQL database schema** for storing users, loan records, EMI schedules, and transaction data.
- Tested and validated APIs using **Postman** and followed clean architecture principles for maintainable and scalable backend development.

AREAS OF INTEREST

Software Development | Backend Development | Problem Solving | Database Management | Finance
API Development | Deployment | AI Tools

COURSES & CERTIFICATIONS

Java Programming and Software Engineering Fundamentals Specialization – Coursera
Gained expertise in OOP, version control with Git, modular design, and software lifecycle management.

CO-CURRICULAR ACTIVITIES

-
- **Paper Presentation – Quantum Robotics (Oct 2024):** Galaxy '24 Phase II, Government College of Engineering, Erode.
 - **Paper Presentation – Artificial Intelligence in Precision Medicine:** International Conference on Sustainable Resilient Remediation (ICSRR'23), Anna University, Chennai.

EXTRA-CURRICULAR ACTIVITIES

-
- **Student Trainee:** Skill Training Program (Java) – strengthened backend and OOP skills.
 - **Volunteer:** Managed registrations for Elanza'24 with over 600 participants, ensuring seamless coordination.

PERSONAL SKILLS

Leadership | Teamwork | Adaptability | Time Management | Communication

LANGUAGES

English (Read, Write, Speak) | Tamil (Read, Write, Speak) | Kannada (Speak)

ADDITIONAL INFORMATION

Open to Backend Developer, Software Engineer, and Java Developer roles. Immediate joiner. Willing to relocate within India.
